

## How to Get Quote for Deck?

**JH BUILDING MATERIALS LTD.**

Available heights of railings: **36"**, **42"**. According to building code in Manitoba, 42" is mandatory if height of deck off ground is greater than 6 feet.

### Information required for quote

1. **Layout of deck with measurements** which should be rounded to the nearest inch, as shown in Figure 1 and 2. No need to indicate the positions of posts. Usually, the maximum spacing between two posts is 6 feet if choosing aluminum railings.
2. **Decide aluminum or glass railings for deck and steps, white or black color, and height.**
3. **Number of steps or the height of deck off ground**
4. **A picture** which can show the whole deck. More pictures for details might be required.
5. **Address** if need installation
