How to Get Quote for Front Steps?

Available heights of railings: 36", 42". According to building code in Manitoba, 42" is mandatory if height of landing off ground (D2) is greater than 6 feet.

Information required for quote

1. **Depth of landing** (D1 as shown in figure 1 and 2). Please round to the nearest inch.
3 posts are needed for one side if there is no pillar on landing, otherwise 4 posts are required. Also, hand rail and base rail can be attached to wall and pillar as required.
2. **A picture** which can show the whole landing and steps
3. **Black or White Color**
4. **36" or 42" height**
